

# Why own an ALbee™?

- Make your life easy with **ALbee™**. For users such as tradies and hobbyists with the need for **small portable, ready-to use** gas cylinders.
- **ALbee™** is economical for annual and/or biennial cylinder exchanges.
- Simply pick up and purchase your **ALbee™** cylinder and when it's empty, exchange it for a new cylinder and **only pay for the refill**.
- **ALbee™** is a **ready-to-use product**. Just plug your hose into the cylinder thanks to the quick connect system and start your work!
- **Saves you time and money** with no more hassle and expense of rental gas cylinders, external regulators to buy, repetitive connection and disconnection of regulators for car transportation.
- **Safety included** with **clear on/off lever positions, shock absorbing guard** to protect the built in regulator and **maintenance ensured** by Air Liquide.
- **ALbee™** is part of the Air Liquide Group a world leader in gas and technologies and though **our processes commit to understand and fulfil our customers' requirements and expectations**. We seek to carry out our activities in a manner which:
  1. Following the **ISO 9001 Quality Standard** to verify the quality and continuous improvement of our policies, procedures, work instructions and management systems.
  2. These systems ensure our products and services **satisfy the highest standards**, through the application of best practices.

# Easy to choose

There is always an ALbee™ cylinder for your needs:

- **ALbee™ Flame** (oxygen/acetylene) for flame welding applications.
- **ALbee™ Weld Ar** and **Weld ArMix** (argon and argon/carbon dioxide mix) for arc welding.
- **ALbee™ Cool** (nitrogen) for HVAC (Heating Ventilation and Air Conditioning) equipment maintenance and installation, inerting and purging.

## Easy to...

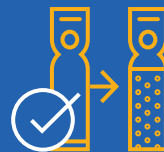

### BUY

- **Rent-free:** no more rental bills, just pay and pick up your cylinder.

### USE

- **MINITOP™ ergonomic built in regulator.** No need to buy a separate regulator.
- **Optimum safety** with its **shock absorbing guard** and on/off lever for fast cut off.
- **Easy set up** with a **graduated hand wheel** and **¼ SAE connection**.

### EXCHANGE

- When empty, just **exchange** at any one of our network of resellers.
- **Maintenance** performed by Air Liquide at each refill.
- Available through an extensive **network of resellers**.
