

## JALAS® 1848K Titan Welding Boots

- Compliant with AS/NZS2210.3:2009.
- Highest level of protection with excellent grip regardless of conditions
- Heat resistant upper and outsole
- PU-coated leather and heat insulation for welding applications
- No weld slag collection areas
- Legendary Jalas comfort and spacious fit
- Protected velcro fastening for firm ankle support
- Aluminium toecap with toe reinforcement
- Penetration-resistant outsole
- Oil-resistant and water repellent outsole with anti-static properties
- Double shock absorption system
- Available in sizes 39-48

“Foot protection should be non-slip and be heat and fire resistant. Avoid using foot protection that has the potential to capture hot sparks and metal debris for example in laces or in open style shoes”.

Welding Processes Code Of Practice, Safe Work Australia, Page 24, April 2016
