

ProfiMaster, two exhaust arms

High capacity filter unit with two exhaust arms

- Reliable industrial quality**
 Robust filter unit with high capacity filter.
 
- 2-Stage filter**
 Long filter life due to pre-filter and 17m² mainfilter.
 
- 360° Radius**
 Maximum flexibility of exhaust arm for use without any restrictions.
 
- One unit for two workstations**
 Space saving and economical: Simultaneous or alternate use at 2 workstations.
 
- Comfortable operation**
 Comfortable adjustment of self-supporting exhaust arm into every desired position with only one hand.
 
- 40% better capture rate**
 Less re-positioning work of exhaust arm due to larger capture area of the flanged hood.
 
- Start-Stop automatic (optional)**
 The link to the welding machine is saving time and energy.
